

# Singapore Digital Economy Forum 2023

Organised by:  **SGDCC** FOUNDATION | SINGAPORE DIGITAL CHAMBER OF COMMERCE

Join us to uncover the secrets of harnessing technology's potential for a thriving economy, where bytes become the currency of success in our society.

# Who Are We?

**Singapore Digital Chamber of Commerce (SGDCC) Foundation** was established to represent the business community in the digital era of the fourth Industrial Revolution.

## Our Vision & Mission:

Championing the Digital Revolution in Asia. Connecting enterprises with policymakers and communities to harvest the Digital Economy in Asia.

## Our Mandate:

- 1. Advocate for Digital Innovation:** At the heart of our mission is the drive to advocate for and promote digital innovation. We firmly believe that embracing emerging technologies is essential for businesses to thrive in today's rapidly evolving landscape. We actively champion the adoption and integration of cutting-edge technologies such as AI, blockchain, and cybersecurity to help businesses stay competitive and relevant.
- 2. Representation and Collaboration:** SGDCC serves as a unified voice for businesses in Singapore, representing their interests in the ever-evolving digital space. We understand that the challenges and opportunities presented by the digital era require collective action. As such, we foster collaboration among businesses, government bodies, and other stakeholders to create a supportive ecosystem for digital transformation.
- 3. Educational Initiatives:** SGDCC is committed to fostering digital literacy and knowledge sharing within the business community. We organize seminars, workshops, and training programs to empower businesses with the skills and insights needed to navigate the digital landscape effectively.
- 4. Networking and Community Building:** We facilitate networking opportunities, both virtual and physical, for businesses to connect, collaborate, and share ideas. Building a supportive community is essential for successful digital transformation.
- 5. Thought Leadership:** SGDCC aims to be a thought leader in the digital space. Our members publish reports, whitepapers, and research findings that provide valuable insights into emerging trends, best practices, and the impact of digital technologies on businesses.

# Industry Focus and Why?

Pillars of Focus: Our organisation centers its efforts around four key pillars of focus:

1. **AI (Artificial Intelligence):** We recognize the transformative potential of AI across industries. We actively support businesses in harnessing the power of AI to enhance productivity, make data-driven decisions, and create more personalized customer experiences.
2. **Blockchain:** Blockchain technology has the potential to revolutionize various sectors, from supply chain management to financial services. SDCCF educates businesses about blockchain's applications and facilitates its implementation in innovative ways.
3. **Cybersecurity:** In an era of increasing digital threats, cybersecurity is paramount. We provide resources and expertise to help businesses safeguard their digital assets and customer data.
4. **Digital Transformation:** We understand that embracing digital transformation is not just a choice but a necessity for businesses to thrive. We provide guidance, resources, and best practices to assist companies in their digital journey.
