

My Work, My Proof

Your Intellectual Outputs are your greatest assets

Your intellectual outputs – ideas, hypothesis, research methodologies, research results, observations, algorithms, etc., are priceless asset to you and your institution.

You must be able to substantiate your intellectual outputs with Proof of Existence (PoE) and that you are the first.

And having Proof of Existence (PoE) is more important than ever

In academia, to get recognition that you deserve you must be the first:

- To disclose research work, a creation, a discovery, an invention, a new method, etc.; and
- Provide proof that it is your work.

Why is the IKR™ the Solution?

The IKR™ (International Knowledge Registry) is the only global solution which enables the registration of your intellectual output – with or without disclosing the content.

The IKR™ provides PoE to establishing the time of your work so you and your institution can –

- Get recognition
- Monetize your work
- Prove misappropriation or theft – or resolve potential disputes.

What is the IKR™?

The IKR™ *is* –

- A unique digital fingerprint + a time/date stamp for any electronic file.
- Held exclusively by the trusted international authority.

The IKR™ *provides* –

- PoE and registration of your intellectual output.
- A demonstration of your intent to protect your creations.

Other Uses of the IKR™

Use the IKR™ on valuable electronic documents containing your secret ideas, new designs, new compositions, recipes, and other valuable commercial information.

-  an idea
-  an outline
-  a draft
-  new pictures or drawing
-  research data, prove prior use
-  a new mechanism
-  a new process
-  an updated version of your client's process or composition
-  a new recipe or a new compound
-  collaboration

To Use the IKR™

Simply go to www.ikr.iipcc.org and register for yourself or your company.

Why did IIPCC Develop the IKR™?

Intellectual property has directly and unquestionably contributed to worldwide higher well-being. However, there have been little changes in how IP is leveraged despite the digital transformation of global commerce and economies. Hence, IIPCC developed the IKR™ in conjunction with the World Intellectual Property Organization (WIPO) as a standard to enable the IP and the enforcement of these rights.

As a standards-setting organization and a think tank, IIPCC realized that the current IP framework and rights established long ago are insufficient for business in the world today. By establishing the IKR™, IIPCC helps business provide valuable PoE for use in economic endeavors and in dispute resolution.

For Mediation and Arbitration Resolution
